Peak / Lowest	72.4 / 51.2
Average attendance	5.0 students
Attention trend	Declining
Frames recorded	36

Engagement timeline

Emotion distribution

Teaching insights

- Students were engaged overall (avg 59.9/100), with quieter stretches.
- Attention gradually decreased as the session went on.
- On average 5.0 students were visible and participating.

Suggestions

- A short activity or break around the dip can re-energise the room.
- Introduce a question or quick poll to invite participation.
- Use concrete examples or visuals to anchor difficult points.
